

As a concerned Indiana Citizen, I want to speak out AGAINST proceeding 02-278.

I am very satisfied with the current Do Not Call Law and am concerned that the effectiveness of this law will be diminished with the preemption from the federal law.

Before requesting to be included on this list, my family received a number of calls EVERY day from solicitors, telemarketers, credit card offers, etc. It was infuriating. Since I have signed up on the No Call List, I have gotten my privacy back.

It is my hope that this law will not be weakened and the calls allowed to begin again as it is a most unwelcome invasion of my home and my time. I am certain that the other residents of Indiana who have signed up on this list have done so for a reason and that is so that we are not bothered by these intrusions.

It is unbelievable that we have to have a law that protects us against these invaders of our homes.

And it is even more unbelievable that it is possible that this protection may be removed without my permission. I cannot express how strongly I feel about this.

Do not weaken this law.
